

CEED 2026 18th Jan 2026

Participant ID	2017062
Participant Name	AARCHI VERMA
Test Center Name	Shankara Institute of Technology
Test Date	18/01/2026
Test Time	9:00 AM - 12:00 PM
Subject	CEED 2026

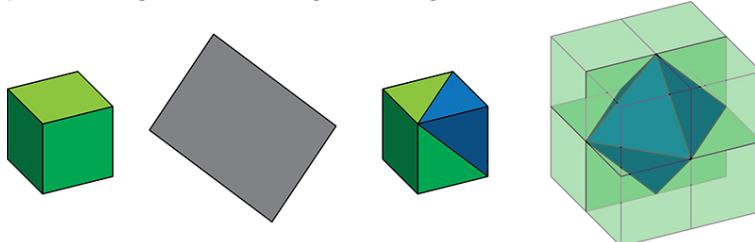

- Q.1** A square paper of side 10 cm is folded sequentially and a circular cut of radius 1 cm is made at the corners as shown below. After unfolding the sheet completely, what will be the total area of all the pieces which have been cut-out from the original square sheet? Assume the value of $\pi = 3.14$.

Given --

Q.1 Coloured strips are printed on a transparent sheet as shown below. The bottom half of this sheet is folded backwards along the PQ axis to form a semi-circle. Which of the option(s) will be a part of the resultant semi-circle?

Options

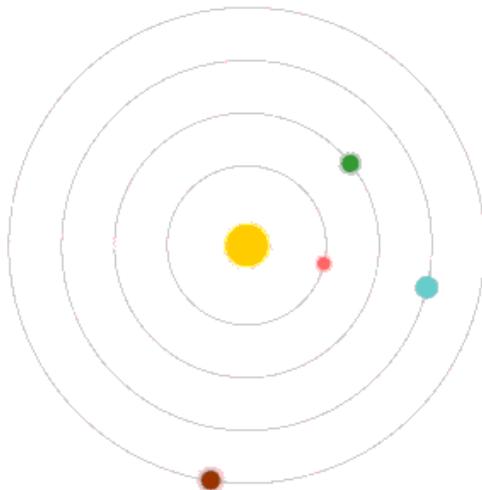

1. A
2. B
3. C
4. D

Question ID : 596099747

Status : Answered

Chosen Option : 2,4

Q.2 An animation of four planets orbiting around the sun is shown below. Based on this animation, which of the following statement(s) is/are TRUE?

Options

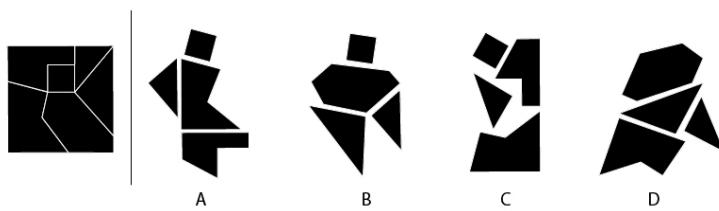

1. When Planet Blue completes 2 orbits, Planet Green will complete 1 orbit.
2. When Planet Blue completes 3 orbits, Planet Brown will complete 2 orbits.
3. When Planet Green completes 1 orbit, Planet Red will complete 2 orbits.
4. When Planet Red completes 4 orbits, Planet Brown will complete 2 orbits.

Question ID : 596099751

Status : Answered

Chosen Option : 1

Q.3 Six different shapes are cut from a square as shown on the left. Which option(s) is/are made using only the cut pieces? Pieces can be rotated and not all pieces need to be used.

Options 1. A

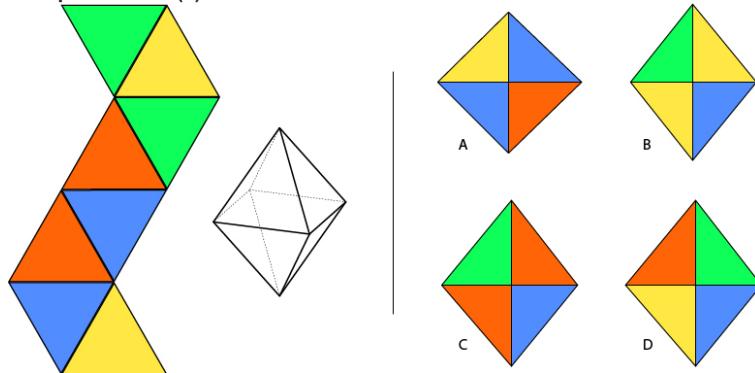

2. B
3. C
4. D

Question ID : 596099753

Status : Answered

Chosen Option : 3,4

Q.4 A coloured sheet is folded into an octahedron as shown on the left. Which of the options show(s) the CORRECT rotated views of the octahedron?

Options 1. A

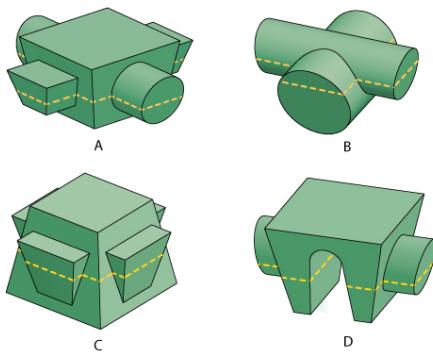

2. B
3. C
4. D

Question ID : 596099744

Status : Not Answered

Chosen Option : --

Q.5 Four objects that are symmetrical along vertical planes are placed in four containers in the orientation shown below. Molten wax is poured in each of these containers up to the level indicated on the objects. Assume that on cooling, the wax does not stick to the objects. Which of the objects will leave its exact negative impression on the set wax when they are vertically lifted?

Options

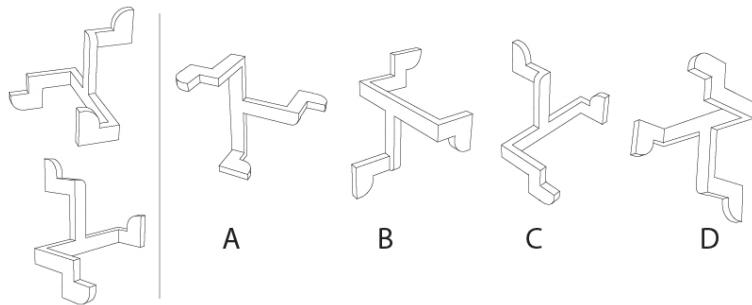

1. A
2. B
3. C
4. D

Question ID : 596099746

Status : Answered

Chosen Option : 1,2,4

Q.6 Two views of a 3D object are shown on the left. Which of the option(s) is/are the same object?

Options

1. A
2. B
3. C
4. D

Question ID : 596099752

Status : Not Answered

Chosen Option : --

Q.7 Which option(s) is (are) NOT a part of the image on the left?

A

B

C

D

Options

1. A
2. B
3. C
4. D

Question ID : **596099745**

Status : **Not Answered**

Chosen Option : --

Q.8 A plant pruner (cutter) with two studs P and Q are shown on the left in open and closed positions. Which option(s) will allow the pruner to return to its open position?

Options

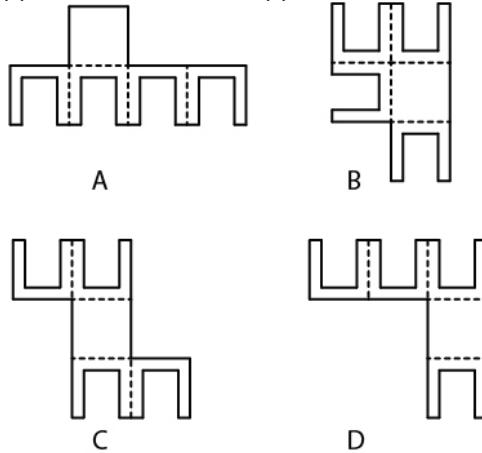

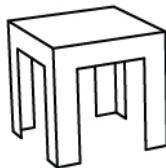

1. A
2. B
3. C
4. D

Question ID : **596099749**

Status : **Answered**

Chosen Option : **2,3**

Q.9 A table made out of cardboard is shown on left. If dotted lines indicate folding, which of the option(s) is/are the unfolded view(s) of the table?

Options

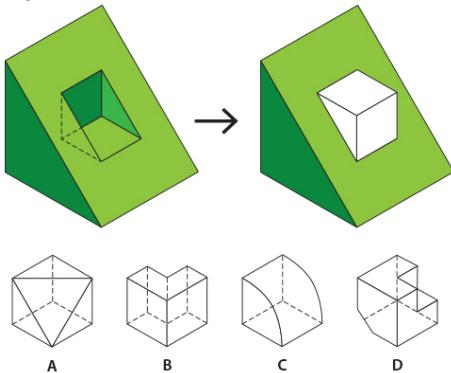

1. A
2. B
3. C
4. D

Question ID : 596099748

Status : Answered

Chosen Option : 1,3

Q.10 A solid object with triangular groove is shown on the left. Which option(s) along with this object can form the combination shown on the right?

Options

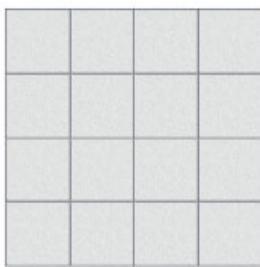

1. A
2. B
3. C
4. D

Question ID : 596099750

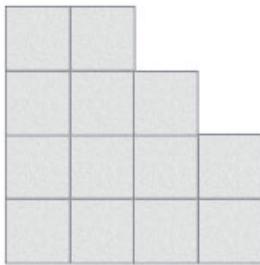

Status : Not Answered

Chosen Option : --

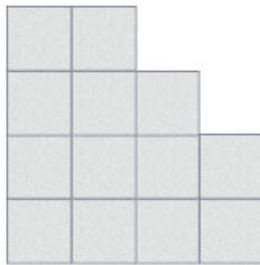

Q.1 Three views of a stack of sugar cubes are shown below. What is the MINIMUM number of cubes that are required to produce this stack?

Top View

Front View

Side View

Options

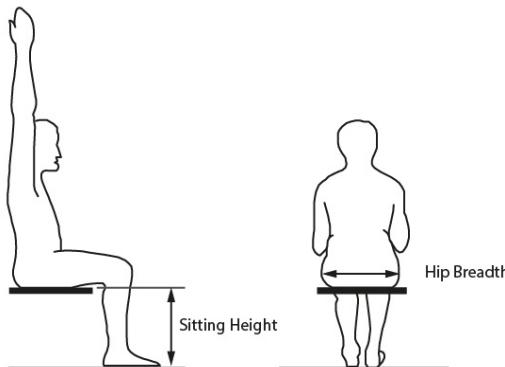

- 1. 25
- 2. 28
- 3. 31
- 4. 35

Question ID : 596099754

Status : Answered

Chosen Option : 2

Q.2 A seat is to be designed for a public bus for adult Indian population. While designing, which option needs to be considered so that MOST of the relevant category population can sit on it comfortably?

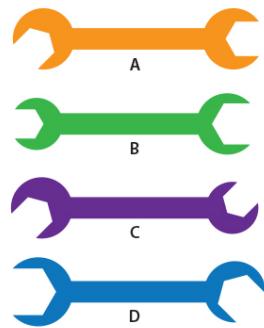

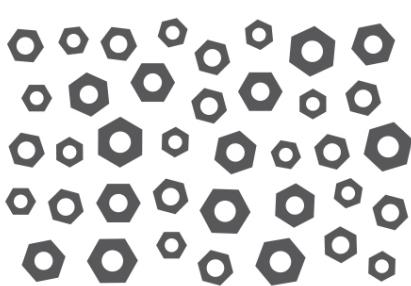

- Options**
1. Seat height is 95th percentile of sitting height and seat breadth is 5th percentile of hip breadth of adult population.
 2. Seat height is 50th percentile of sitting height and seat breadth is 95th percentile of hip breadth of adult population.
 3. Seat height is 5th percentile of sitting height and seat breadth is 5th percentile of hip breadth of adult population.
 4. Seat height is 50th percentile of sitting height and seat breadth is 5th percentile of hip breadth of adult population.

Chosen Option : --

Q.6 Isometric view of a solid copper object is shown below. If a constant heat source of 100 degrees C is applied at the point P continuously, which point on the solid will reach the temperature of the heat source the earliest? Neglect heat losses and assume point P lies on an equilateral triangle.

Options

1. A
2. B
3. C
4. D

Question ID : 596099776

Status : Not Attempted and
Marked For Review

Chosen Option : --

Q.7 Two objects created using a toy set are shown below. Choose the set of features that CANNOT be attributed to the toy set.

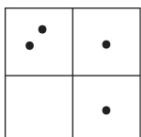

Options

1. Use of slotted plates, sheets and brackets; Use of Standardized components.
2. Possibility of multiple combinations; Appropriate for pre-school kids.
3. Suitable for Creativity and Spatial development; Suitable for prototyping.
4. Appropriate for learning through play; Suitable for making study models.

Chosen Option : 4

Q.10 A toy with reciprocating movement is shown. As the wheels of the toy rotate, the head is required to reciprocate. If given options are indicative of conversion of rotary to linear motion using a disc located at the centre of the wheel shaft, which option will result in the required movement when the toy is pushed forward? Assume a working spring loaded cam mechanism in the relevant option/s.

Options

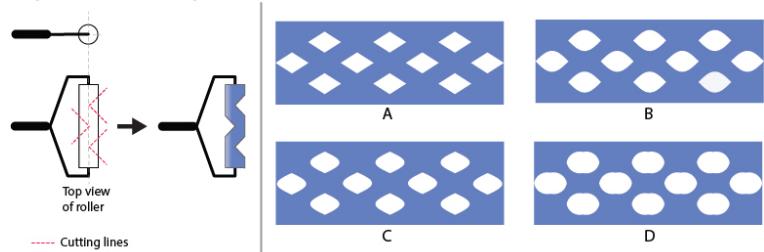

1. A
2. B
3. C
4. D

Question ID : 596099770

Status : Answered

Chosen Option : 1

Q.11 A hard rubber roller is cut with a 'V-shaped' profile at three locations as shown in the Top View in the image on the left. The roller is then dipped in blue colour and rolled over a white plane. Which option shows the correct impression on the plane?

Options

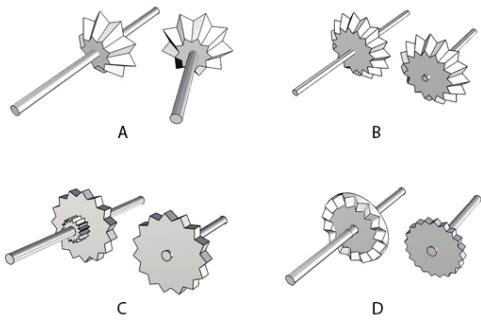

1. A
2. B
3. C
4. D

Question ID : 596099755

Status : Answered

Chosen Option : 1

Q.12 A toy is shown on the left. When the wheels of this toy rotate, the fan is also required to spin. If one pair of gears is to be used exclusively, which option will make this possible?

Options

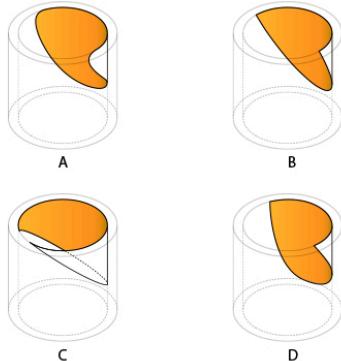

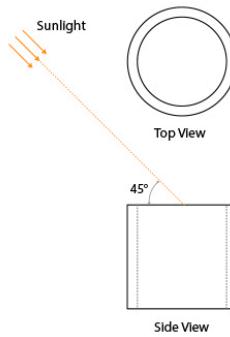

1. A
2. B
3. C
4. D

Question ID : 596099769

Status : Answered

Chosen Option : 2

Q.13 A hollow cylinder is lit by sunlight at 45 degrees as shown on the left. If seen from a fixed point, which option is the closest representation of the lit area inside the cylinder?

Options

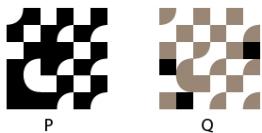

1. A
2. B
3. C
4. D

Question ID : 596099777

Status : Answered

Chosen Option : 1

Q.14 P and Q are printed patterns where the white portion of both the patterns is transparent. If Q is overlapped on P, which option will be the resultant image?

P

Q

A

B

C

D

Options 1. A

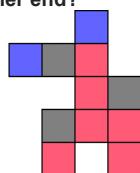

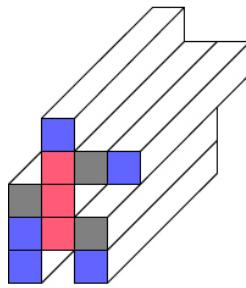

2. B
3. C
4. D

Question ID : 596099756

Chosen Option : 3

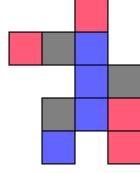

Q.15 Several magnetic and non-magnetic bars of equal dimensions are glued together as shown on the left. If blue denotes magnetic north, red denotes magnetic south and grey denotes non-magnetic material, what will be the configuration of the faces on the other end?

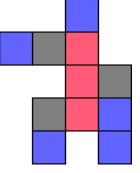

A

B

C

D

Options 1. A

2. B
3. C
4. D

Question ID : 596099767

Status : Answered

Chosen Option : 2

Q.16 Choose the CORRECT option that combines with the image on the left to form a word from the English language.

A 

B 

Clairvoyance

C 

D 

Options

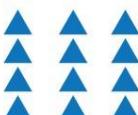

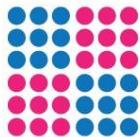

- 1. A
- 2. B
- 3. C
- 4. D

Question ID : 596099765

Status : Answered

Chosen Option : 4

Q.17 Select the option that shows the CORRECT sequence of gestalt principles associated with the image, as seen from the left to right.

Options

- 1. Closure, Proximity, Continuity, Similarity
- 2. Similarity, Continuity, Proximity, Closure
- 3. Continuity, Similarity, Closure, Proximity
- 4. Proximity, Closure, Similarity, Continuity

Chosen Option : 1

Q.1 Q.1 Sketching: Mandatory question (20 marks)

One afternoon, seven-year old Chinu and her pet dog are enjoying snacks in their kitchen. Chinu's father suddenly enters the kitchen and sees this pleasant moment with a smile.

Sketch the whole scene from the point of view of a chair kept nearby.

Question ID : 596099780

Status : Answered

Additional Instructions:

- Use only black/HB-series pencils
- Do not use other colours
- Draw only in the given space

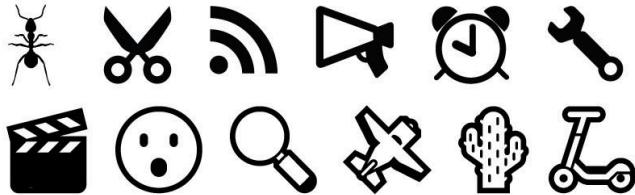

Evaluation Criteria:

- Character and Expressions
- Proportion and Composition
- Quality of Sketching
- Environment and Props

Q.2 Q.2 Creativity: Mandatory question (20 marks)

In the given frames, sketch a story by incorporating the symbols shown below. Follow these instructions:

- Give an appropriate title to the story.
- Use ANY TWO symbols in each frame; Use each symbol ONLY ONCE in the whole story.
- The symbols cannot be modified, but can be rotated, flipped or scaled proportionately.
- You are free to sketch additional elements (backgrounds, characters, props etc.) to make the story meaningful.
- Label the frames in the bottom left corners with the number 1,2,3, and 4 to indicate the sequence of your story.

**Evaluation criteria:**

- Originality
- Graphical Narrative (Story Communication)
- Humour and Surprise
- Clarity and Neatness of Sketches

Question ID : 596099781

Status : Answered

Q.3 Q.3 Visual sensitivity: Mandatory question (20 marks = 4 x 5 marks)

A new museum with the theme “Indian Museum of Science” is being set up, which will cater primarily to Indian visitors. Create four icons based on the museum theme, to communicate the following sections to visitors:

- Robotics
- Energy Science
- Ocean Science
- Food Technology

All icons should be clear and visible, and have a consistent visual language. Draw the icons in the FOUR squares provided in the answer booklet. Icons should only have visuals. DO NOT use text. Only BLACK & WHITE colours should be used for the icons.

Question ID : 596099782

Status : Answered

Evaluation Criteria:

- Consistency of visual language
- Thematic appropriateness
- Effective communication
- Composition, Clarity and Neatness

Q.4 Q.4 Form sensitivity: Mandatory question (20 marks)

Conceptualise and render a usable single seat furniture that is inspired by a sphere, for a living room. The sphere may be modified by cutting, adding, subtracting, deforming and repeating. However, the essence of the sphere should be retained.

Question ID : 596099783

Status : Answered

Evaluation Criteria:

- Uniqueness of the form
- Form-Function relevance and relationship
- Detailing
- Rendering quality

Q.5 Q.5 Problem identification: Mandatory question (20 marks)

An elderly couple from Srinagar is travelling to Chennai for medical treatment. They will travel by train for most of their journey and plan to take a bus and auto rickshaws for all local commutes.

Imagine their journey and identify FOUR distinct problems that they might face, which may need design solutions.

Write the FOUR problems statements starting with the words "How can we..." for the given context, in the space provided on the answer booklet. (2 x 4 = 8 marks)

For your reference, an example of "How can we ..." from another context: How can we - make science learning enjoyable for primary school children?

Select any ONE of the four identified problems statements. Draw TWO potential design solutions for the selected problem statement in the boxes provided on the answer booklet. Write a short title for each solution in the space provided inside the box. (6 x 2 = 12 marks)

Question ID : 596099784

Status : Answered

Evaluation Criteria:

- Variety and uniqueness of the problems
- Relevance of the problems
- Practical feasibility of the design solutions
- Clarity in communication

"
